DESCRIPTIONS

SHRUBS

*****4-WING SALT BUSH** - Mature height 4'. Native, excellent salt and alkali tolerance. Good wildlife forage value.

** (F) **ANTELOPE BITTERBRUSH** - Mature height 6'. Native, excellent drought tolerance and cold hardiness. Well suited for a wide range of soils. Excellent wildlife food source.

*****CARAGANA** - Mature height 10'. Excellent drought, cold and alkali tolerances. Very hardy. Good choice for windbreaks. Multi stemmed. Best in sandy to loamy soils up to 9,500'.

* (F) **CHOKECHERRY** - Mature height 10'. Excellent cold hardiness. Good choice for windbreaks and attracting wildlife. Native, multi stemmed, up to 9,000'.

***COTONEASTER** - Medium shrub; drought resistant; alkaline tolerant; high wildlife value.

◆**COYOTE WILLOW** - Mature height 10'. Excellent cold and alkaline tolerance. Good wildlife suitability. Grows well in moist soil.

***GOLDEN CURRANT** - Small to medium shrub, fairly drought and alkali tolerant. Good cover for small wildlife. Plant up to 8,000'.

* (F) **LILAC** - Mature height 10'. Dense shrub, excellent cold hardiness and windbreak suitability. Attractive purple flowers. Multi stemmed, grows well in most soils up to 8,000'.

*****MOUNTAIN MAHOGANY** - Mature height 6'. Excellent cold hardiness and grows well up to 9000'

***NANKING CHERRY** - Mature height 6'. Excellent cold hardiness and wildlife suitability. Grows well in most soils up to 8,000'.

* (F) **NATIVE PLUM** - Mature height 8'. Excellent cold hardiness, windbreak and wildlife suitability. Does well in most soils (excluding strongly alkaline) statewide up to 8,000'.

*****NEW MEXICO PRIVET** - Mature height 10'. Multi stemmed. Excellent for windbreaks, cold hardiness, alkali tolerance & wildlife suitability up to 7,500'.

RED OSIER DOGWOOD - Mature height 10'. Native. Great winter color. Excellent wildlife suitability, fast growing, multi-stemmed shrub.

* (F) **SASKATOON SERVICEBERRY** - Mature height 3'. Native with edible fruit and showy flowers. Cold hardy, moderate growth, attracts big game, drought resistance is fair, moist soils. Up to 9,000 ft.

*****SUMAC** - Small to medium shrub: excellent drought resistance: alkaline tolerant: plant to 8,000'

***WAX CURRENT** - Mature height 3'. Does not perform well in salty soil. High wildlife value, grows well from 5,000 to 11,500'.

* (F) **WILD ROSE / WOODS ROSE** - Mature height 4'. Rapid growth, excellent wildlife value, especially in winter, up to 10,000'.

DECIDUOUS TREES

◆ (F) **ASPEN** - Mature height 35'. Attractive ornamental tree. Prefers moist soils. Excellent cold hardiness. Potential disease problems

*****BUR OAK** - Mature height 40'. Excellent drought tolerance, windbreak and wildlife suitability up to 6,500'. Slow to establish.

*****HACKBERRY** - Mature height 40'. Excellent cold hardiness and windbreak suitability. Drought tolerant; does well in difficult sites up to 7,000'.

* (F) **HONEYLOCUST** - Mature height 40'. Broad, open crown. Excellent cold hardiness. Potential disease problems; up to 7,500'.

***KENTUCKY COFFEE TREE** - Mature height 60-75'. Sparse branch structure to allow sunlight into areas in winter. Cold hardy. Seed pods are potentially toxic to humans and cattle (most cultivars are male and will not produce seeds); elevation up to 7,500'.

***MANCHURIAN APRICOT** - Mature height to 20'. Fast growing, rounded, spreading form. Excellent cold hardiness, attractive flowers, edible fruit. Valuable to bees and wildlife.

***NORTHERN CATALPA** - Mature height 60' showy flowers pollinator interest by hummingbirds and bees. Cold hardy, moderate to rapid growth rate, drought or flooding tolerance.

PERENNIALS

LANCELEAF COREOPSIS - A clump-forming perennial herb with short rhizomes. Prefers full sun, but will tolerate light shade. Tolerates drought

LEADPLANT - Mature height 10'. Native, Cold hardy, wildlife sustainability, deer resistant, pollinator interest by bees, butterflies.

LITTLE BLUESTEM GRASS - A warm-season perennial grass. Height from 1-3 feet. Adapts well, drought tolerant, appeals to wildlife.

BLUE GRAMA GRASS - Has a short stature with a prolific root system. Has a fair salinity and moderate alkalinity tolerance. It is drought-tolerant and grows well in sandy to clay soil.

PRAIRIE CONEFLOWER - Is a native ornamental wildflower. It is pollinator friendly, drought-tolerant and low maintenance.

SWITCHGRASS - Mature height 6'. Native, drought tolerant, grown for winter interest, attracts birds, naturalizes and rain garden. Birds feed on seeds in winter.

Issued in furtherance of Extension work, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Glen Whipple, Director, UW Extension, University of Wyoming, Laramie, Wyoming 82071.

Persons seeking admission, employment, or access to programs of the University of Wyoming shall be considered without regard to race, color, religion, sex, national origin, disability, age, political belief, veteran status, sexual orientation, and marital or familial status. To file a complaint, write the UW Employment Practices/Affirmative Action Office, University of Wyoming, Dept. 3434, 1000 E. Univ. Ave., Laramie, Wyoming 82071.

EVERGREEN TREES

*****BRISTLECONE PINE** - Mature height 30'. Distinctive appearance-picturesque. Slow growing, excellent cold hardiness, drought tolerance and windbreak suitability up to 11,000'

***DOUGLAS FIR** - Mature height 50'. Native, best from 6,000-9,000'. Excellent cold hardiness, good drought resistance.

*****EASTERN RED CEDAR** - Mature height 20'. Densely pyramidal up to 7,500'. Excellent cold hardiness, windbreak and wildlife suitability.

***ENGLEMANN SPRUCE** - Mature height 30'. Densely pyramidal crown. Best above 8,000'. Excellent cold hardiness.

***LIMBER PINE** - Mature height 35'. Excellent cold tolerance, slow growing long lived with high wildlife value, up to 11,000'.

*****LOGSPOLE PINE** - Mature height 35-70' Excellent drought resistance & cold hardiness. Slow growth rate. Good for high elevation.

*****ONE-SEED JUNIPER** - Mature height to 30'. Slow-growing, drought-hardy, adaptable to 7000'. High wildlife value.

*****PINON PINE** - Mature height 20'. Densely pyramidal up to 7,500'. Attractive, slow growing, native. Excellent cold, drought & alkali tolerance.

*****PONDEROSA PINE** - Mature height 40', open crown. Native, excellent cold and drought tolerance, windbreak & wildlife suitability. Establishes quickly up to 9000'. Grows well in all but the heaviest clay soils.

***SCOTCH PINE** - Mature height 30'. Irregular open crown and spreading branches, up to 7000'. Good cold & drought tolerance. An introduced species.

***WHITE FIR** - Mature Height 100'. Soft needle more drought resistant substitute for Blue Spruce. Excellent cold hardiness.
