♣ Poor Drought Resistance F - Fire-Wise Plants

**Refunds will take 6-8 weeks and will be paid through UW In Laramie**

## SHRUBS

\*\*\* **4-WING SALT BUSH** - Mature height 4'. Native, excellent salt and alkali tolerance. Good wildlife forage value.

\*\*\* (F) **ANTELOPE BITTERBRUSH** - Mature height 6', Native, excellent drought tolerance and cold hardiness. Well suited for a wide range of soils. Excellent wildlife food source.

\* **BUFFALO BERRY** - Mature height 10'. Suckering shrub; withstands cold, wind and drought; tolerates alkaline soils, attracts birds. Native, Indians used the berries to flavor buffalo meat

\* (F) **CHOKECHERRY** - Mature height 10'. Excellent cold hardiness. Good choice for windbreaks and attracting wildlife. Native, multi stemmed, up to 9,000'.

◆ **COYOTE WILLOW** - Mature height 10'. Excellent cold and alkaline tolerance. Good wildlife suitability. Grows well in moist soil.

\* (F) **LILAC** - Mature height 10'. Dense shrub, excellent cold hardiness and windbreak suitability. Attractive purple flowers. Multi stemmed, grows well in most soils up to 8,000'.

\*\*\* **MOUNTAIN MAHOGANY** - Mature height 6'. Excellent cold hardiness and grows well up to 9000'

\* **NANKING CHERRY** - Mature height 6'. Excellent cold hardiness and wildlife suitability. Grows well in most soils up to 8,000'.

\* (F) **NATIVE PLUM** - Mature height 8'. Excellent cold hardiness, windbreak and wildlife suitability. Does well in most soils (excluding strongly alkaline) statewide up to 8,000'.

\*\*\* **NEW MEXICO PRIVET** - Mature height 10'. Multi stemmed. Excellent for windbreaks, cold hardiness, alkali tolerance & wildlife suitability up to 7,500'.

◆ **RED ELDERBERRY** - Mature height 10'-20'. Native large shrub or small multi-stem tree. Clusters of showy creamy white flowers in spring attract hummingbirds. Red fruit in fall feeds birds and a variety of mammals. Up to 9,500 ft. Plant poisonous for humans. Fruit high in ascorbic acid, with proper processing used for jellies and wine making.

**RED-OSIER DOGWOOD** - Mature height 10'. Native. Great winter color. Excellent wildlife suitability, fast growing, multi-stemmed shrub.

\* **WAX CURRENT** - Mature height 3'. Does not perform well in salty soil. High wildlife value, grows well from 5,000 to 11,500'.

## DESCRIPTIONS

### DECIDUOUS TREES

◆ (F) **ASPEN** - Mature height 35'. Attractive ornamental tree. Prefers moist soils. Excellent cold hardiness. Potential disease problems

\* (F) **HONEYLOCUST** - Mature height 40'. Broad, open crown. Excellent cold hardiness. Potential disease problems; up to 7,500'.

\* **MANCHURIAN APRICOT** - Mature height to 20'. Fast growing, rounded, spreading form. Excellent cold hardiness, attractive flowers, edible fruit. Valuable to bees and wildlife.

### PERENNIALS

◆ **COLORADO BLUE COLUMBINE** – Mature height 6" – 36". Native perennial. Sub-alpine meadows, open woods and near mountain streams

**LANCELEAF COREOPSIS** - A clump-forming perennial herb with short rhizomes. Prefers full sun, but will tolerate light shade. Tolerates drought

**YELLOW PRAIRIE CONEFLOWER** - Is a native ornamental wildflower. It is pollinator friendly, drought-tolerant and low maintenance.

Issued in furtherance of Extension work, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Glen Whipple, Director, UW Extension, University of Wyoming, Laramie, Wyoming 82071.

Persons seeking admission, employment, or access to programs of the University of Wyoming shall be considered without regard to race, color, religion, sex, national origin, disability, age, political belief, veteran status, sexual orientation, and marital or familial status. Persons with disabilities who require alternative means for communication or program information (Braille, large print, audiotape, etc.) should contact their local UW Extension Office. To file a complaint, write the UW Employment Practices/Affirmative Action Office, University of Wyoming, Dept. 3434, 1000 E. Univ. Ave., Laramie, Wyoming 82071.

### EVERGREEN TREES

\*\*\***BRISTLECONE PINE** - Mature height 30'. Distinctive appearance-picturesque. Slow growing, excellent cold hardiness, drought tolerance and windbreak suitability up to 11,000'

**COLORADO BLUE SPRUCE** - Mature height 60', attractive ornamental up to 9,000'. Prefers moist soils, excellent cold hardiness.

\*\*\***EASTERN RED CEDAR** - Mature height 20'. Densely pyramidal up to 7,500'. Excellent cold hardiness, windbreak and wildlife suitability.

\***ENGLEMANN SPRUCE** - Mature height 30'. Densely pyramidal crown. Best above 8,000'. Excellent cold hardiness.

\***LIMBER PINE** - Mature height 35'. Excellent cold tolerance, slow growing long lived with high wildlife value, up to 11,000'.

\*\*\***ONE-SEED JUNIPER** - Mature height to 30'. Slow-growing, drought-hardy, adaptable to 7000'. High wildlife value

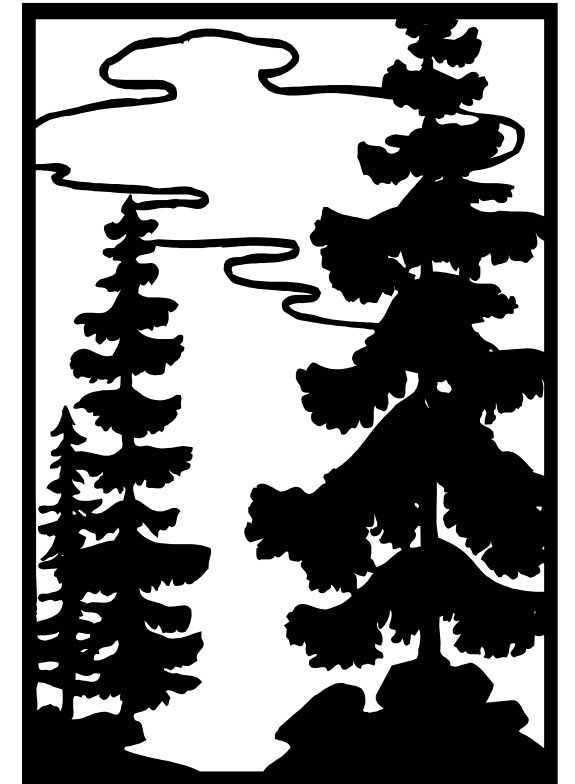

\*\*\***PONDEROSA PINE** - Mature height 40', open crown. Native, excellent cold and drought tolerance, windbreak & wildlife suitability. Establishes quickly up to 9000'. Grows well in all but the heaviest clay soils.

\***SCOTCH PINE** - Mature height 30'. Irregular open crown and spreading branches, up to 7000'. Good cold & drought tolerance. An introduced species.
