### **Media Advisory: Significant Weather Advisory**

For Immediate Release:

All residents living on the face or north side of Casper Mountain should be prepared to evacuate at a moments notice. The area includes: any residence on the face of the mountain, from Hogadon, East towards Hat Six. Strong Thunderstorms are entering the area with gusty winds. These winds can be erratic and can change directions at any second. Again this is not an evacuation notice, but those living in the affected areas need to be prepared to move quickly.
